

## HS Series

### *Irritrol Systems...*

#### *The choice of the professional irrigation contractor*

Trust the products that irrigation contractors have counted on for years! Professional-grade Irritrol Systems components are designed and manufactured with a focus on heavy-duty construction, dependable operation and homeowner convenience.

A brand of The Toro Company specifically for professional irrigation installers, Irritrol Systems is a name you can trust to help provide the beautiful, trouble-free lawn and garden your home deserves.

Reliable performance, durable construction, flexibility and convenience are the hallmarks of HS Series commercial-grade, fixed-spray sprinklers.

# HS Series sprinklers: A standard for performance

No matter how reliable a controller you have or how durable your valves, if the water isn't placed properly on your lawn and plants, your landscape will suffer. This is why it is important to install sprinklers with a proven track record for reliable performance.

Irritrol Systems HS Series fixed-spray sprinklers provide a flexible selection of pop-up heights, an extensive choice of nozzles and a number of performance-enhancing features to ensure your landscapes gets the precise amount of water it needs, exactly where it needs it. Plus, they feature commercial-grade construction for long-term reliability.

## *Designed to meet any landscape demand, the HS Series features:*

- Three-, four-, six- and 12-inch pop-up heights to accommodate a variety of plant types and mowing levels
- A wide range of nozzle choices with spray patterns to accurately water any size and shape landscape area
- A heavy-duty, one-piece molded body for durability
- A heavy-duty, stainless steel retract spring to ensure positive pop-down
- A pressure-activated seal that protects internal components from debris and reduces leaking during pop-up and pop-down
- Optional check valve models to prevent after-operation drainage from sprayheads on slopes that can cause runoff and erosion
